The undersigned hereby makes application for a permit pursuant to GHMC 15.04.060, Flood Hazard Construction Standards. The work to be performed, including flood protection works, is as described above and in attachments hereto. The undersigned agrees that all such work shall be in accordance with the requirements of the Gig Harbor Municipal Code and all other applicable federal, state and local requirements.

 Applicant Signature Applicant Name (Print Legibly) Date

For Official Use Only

Permit Number _____ **Approved** **Denied**

This permit is issued with the condition that the lowest floor level (including basements and crawlspace floors) of any new or substantially improved structure will be elevated or floodproofed in accordance with requirements of the National Flood Insurance Program to a minimum of 1 foot above the base flood elevation. The applicant is required to provide an approved elevation certificate prior to approval of a building permit and an approved certification by a registered engineer or a land surveyor certifying that the lowest floor (including basements and crawlspace floors) complies with the requirements of the NFIP and Gig Harbor Municipal Code.
